

## Carbon Stainless Steel Cleaning

### THE CARBON STAINLESS STEEL FINISH:

There are several important things to remember to keep your Carbon stainless steel finish looking its best.

1. Carbon stainless uses the interest of brushed steel to bring out the maximum metallic luster of its charcoal background.
2. Different light types and source locations can result in variations in shading on different components and areas of large appliances. These variations are normal with the Carbon finish and add to the unique character of colored stainless steel.

#### **⚠ WARNING**

**UNDER NO CIRCUMSTANCES SHOULD YOU USE A METALLIC OR ABRASIVE CLEANER OR CLOTH AS THIS WILL REMOVE THE CARBON FINISH. CUSTOMER MISUSE IS NOT COVERED BY WARRANTY. CLEANING PRODUCTS THAT CONTAIN BLEACH OR AMMONIA SHOULD ALSO BE AVOIDED.**

### CARBON STAINLESS STEEL CLEANING PROCEDURE:

1. To clean exterior of Carbon stainless steel, use mild dishwashing soap and water.
2. To bring out the natural luster of finish, lightly wipe surface with a water-dampened microfiber cloth.
3. All work should follow the grain direction of the Carbon finish.
4. For best results, keep the cloth in continuous contact with the metal.
