

# Refreshment Center

FOR HOME AND OFFICE

Part of the art of hospitality is having refreshments within easy reach. The Sub-Zero 801 RFD has all the capacity you need for ice, mixes, cordials, ice cream and an array of hors d'oeuvres. Automatic ice maker produces hard, crescent shaped cubes...perfect

for use as is or for crushing. The 801 is easy to build-in and can be blended into the decor by inserting door panels of wood, laminates, plastic, or many other materials. Of course, the refrigeration units are solidly crafted in the Sub-Zero tradition.

MODEL 801 RFD REFRIGERATOR/FREEZER BY

**SUB-ZERO**

**Match or Blend with Any Decor** — Doors are designed to permit use of easily-installed decorative panels. Wood, stainless steel, painted panels, or practically any material up to 1/4" thick can be used to harmonize with cabinets or other equipment. And, panels can be easily changed at any time the decor is changed.

**Automatic Ice maker** — Produces crescent-shaped, 0° hard ice.

**Levelers** — Four adjustable.

**Completely Automatic Defrost** in both refrigerator and freezer. Foamed-in-place insulation for efficient, economical operation. Adjustable temperature control.

**Lighting** — In refrigerator compartment controlled by automatic door switch.

**Five Year Warranty Plan** — Covers all parts and labor to repair compressor, condenser, evaporator, drier and all connecting tubing for five years from date of installation and a one-year warranty covering all parts and labor, on the entire unit, from date of installation. (Does not include installation.)
