CONTENTS

- 2 Filter, charcoal

Note: The charcoal filters should be replaced after 200 hours of use.

CEILING-MOUNTED HOODS AND UNDER-CABINET HOOD INSERTS RECIRCULATING FILTERS INSTALLATION

- 1 Pull down the front edge of the bottom panel of the hood and allow it to rotate downward.
- 2 Remove the mesh filters.

- 3 Place the recirculating filters on both sides of the blower and rotate the filters counter-clockwise to secure.

- 4 Install the mesh filters and rotate the bottom cover upward and into position.
