

OVEN CAVITY COMPONENTS:

⚠ WARNING

TURN OFF THE ELECTRICAL POWER GOING TO THE OVEN BEFORE SERVICING.

Left and Right Rack Guide Removal

First, remove oven racks. Then, extract the screws in each corner, top and bottom of the rack guide and lift guide out. (See [Figure 4-24](#)).

Oven Lights Removal

To remove the oven lights you will need to remove the oven racks and guides. Next, the light cover will need to be removed by gently pulling the light cover off the light housing. (See [Figure 4-25](#)). Now, to remove the light bulb, lift the bulb straight up and out of the light bulb socket.

NOTE: When replacing the light bulb with a new one, wrap a clean cloth around the new bulb so fingerprints are not left on the new bulb. The greasy residue from fingerprints may cause the new bulb to burn out prematurely.
